Terra

Crafted to elevate

Terra is a PC case designed and engineered to reshape the small form factor gaming experience. Inspired by the homes of modern gamers, Terra incorporates boutique design features such as thick panels cut from anodized aluminum, CNC-milled details and FSC-certified solid walnut. Inside, it includes a PCIe 4.0 Riser cable and features a stepless slidable central wall for build flexibility, providing space for a powerful GPU up to 322 mm in length.

Key features

- Install your choice of powerful GPU up to 322 mm in length, in a space-saving 10.4 L case
- Add natural materials to your setup with a front-facing panel cut from FSC-certified solid walnut
- Enjoy a sleek anodized aluminum exterior including an 8 mm-thick aluminum front
- Find your build's ideal balance with 30 mm of internal flexibility provided by a stepless, slidable central wall
- Front-facing I/O featuring an aluminum power button and two USB ports including one USB Type-C 20Gbps
- Get a head start on your build with the included PCIe 4.0 Riser cable
- Store up to two SSDs in the dedicated 2.5" drive mounts
- Swing open the side panels or slide off the top with an integrated tab for easy access
- Make the most of natural airflow through the ventilated top, side and bottom panels
- Transport your finished build safely with lockable top and side panels

General specifications

Specification	Configured for Max GPU	Configured for Max CPU-Cooler
GPU max length	• 322 mm	
GPU max width 1 *if GPU height is lower than 131 mm	• 72 mm	• 43 mm
GPU max width 2 *if GPU height 131-145mm	• 62 mm	• 33 mm
GPU max height	• 145 mm	• 131 mm
*CPU cooler max height	• 48 mm	• 77 mm
*Additional comment	• Motherboard Spine is adjustable, which affects the min/ max GPU width and CPU cooler height. If GPU width is increased, CPU cooler height will decrease and vice versa. • The max width of the GPU is also dependent on the height. There are two different scenarios (H<131mm, H>131-145mm). See manual for detailed info.
