

## AIRY FRYER DUAL METAL

**Model:** 4624/00

**Code:** 00C462400ARO

**EAN:** 8003705120648

With the Airy Fryer Dual Metal air fryer you can fry any dish in double quantity, using only one tablespoon of oil to obtain healthy and tasty frying at the same time. Thanks to the 2 separate baskets, 4 L each, with Ariete's Airy Fryer Dual Metal you can cook up to 3.4 kg of French fries in one go! French fries, but not only, also croquettes, fish, meat and many other breaded foods, both frozen and ready to fry, and fresh and just breaded, thanks to 8 preset programs.

How does the air fryer work?

The air fryer cooks thanks to the high temperature air, adjustable from 35 ° C up to 200 ° C, which circulates at maximum speed and at 360 ° inside the cooking chamber and **guarantees uniform distribution** of the heat inside. It is precisely the hot air that allows the dishes to cook evenly and the formation of a crispy crust on the outside, which has nothing to envy to traditional frying. Thanks to the hot air, there will be no need to add a lot of oil to get a tasty fried, because a simple spoon will be enough, in this way you will bring **lighter but tasty foods** to the table for the whole family.

You can cook **two different dishes at the same time** or cook a dish in large quantities by dividing it into the 2 baskets with the **Dual Cook function**.

For dinners and lunches based on different dishes, don't worry about the timing: with the **Synchronize function** you can cook 2 different dishes and make sure they are ready at the same time.

The real plus of **Airy Fryer Dual Metal** is the Max Crisp function: thanks to the special grill that places the raised foods inside the air chamber, cooking will be more crunchy in a few minutes.

The **Airy Fryer Dual Metal** air fryer is easy to clean thanks to the removable non-stick baskets and has a low environmental impact, because it does not produce used oil, which is one of the most difficult to dispose of waste in circulation.

#### Product specifications

Power	1700w
Total capacity	8L (4Lx2)
Basket capacity for dishes	3.4 kg (1.7kgx2)
Non-stick removable baskets	2
Functions	Dual zone, dual cook, synchronize
Digital panel	LED touch
8 preset programs	✓
Timer	up to 60 minutes
Adjustable temperature	35 ° C - 200 ° C
