# Yeelight LED Drawer Sensor Light

Equipped with a distance sensor, the drawer light turns on automatically as soon as you open the drawer at night and turns off again as soon as the drawer is closed. The on / off button also provides the ability to manually turn on the light in brighter environments and turn it off in the dark when there is no need. The 2700 K warm light is very friendly to your eyes. With drawer light, you do not worry about the disturb your families and your babies when you want to find something at mid night in the drawer.

Model Number	YLCTD001
Product Name	Yeelight LED Sensor Drawer Light
Size	68 mm x 26 mm x 11 mm
Weight	25 g
Luminous Flux (Brightness)	15 lm
Color Temperature	2700 K
Rated Power	0.15 W
Rated Input	5V DC /0.5A
Standby Current	0.12 mA
Service Hours	≥ 6h under ON mode
Operating Temperature	-10 °C to +40 °C
Operating Humidity	0–85 % rF
Color Rendering Index (CRI)	Ra≥80
IP Code	IP20
Battery Capacity	350 mAh
Charging Method	Type- C charging
Lifetime	≥25,000h
Sensor Module	Distance sensor
Interchangeable Light Source	no
