

Qoltec RACK cabinet 19" | 12U | 600 x 635 x 450

Product code: 54485

RACK cabinets are also called ICT cabinets or server cabinets. These are industrial devices used to organize space for IT equipment.

Multi-sector use

RACK cabinets are used to store servers, network devices, UPS power generators or switches – the task of RACK cabinets is to protect the equipment and guarantee its **stable functioning and maintaining order in the IT sphere.**

They are used not only in the IT industry but also in energy or industry, they are equipped with rubber shock-absorbing feet and a ventilation system, the main element of which are perforated doors or ventilation panels.

Organize a safe space

You don't have to worry about the stable functioning of the servers. **The space is organized and tidy, and servers and data remain secure.**
Rack cabinets are also an **integral part of each server room and guarantee the stable and effective operation of the data center.** They have many different parameters and variants of execution, so you will certainly **find a model that suits your needs.**

Trust confirmed by warranty

Do you care about the high quality of the product you buy? **Our solutions will meet your expectations.** Each of the RACK cabinets we offer is covered by a 24-month warranty valid from the date of purchase.
