

AUTOMATIC SPRAY DISINFECTANT ATOMIZER

P201UTP011

Automatic spray disinfectant atomizer ideal to effectively sanitize your hands wherever it is not possible to use water and soap. Contactless operation: by simply approaching the infrared sensor with your hands or the objects to be disinfected it will be possible to activate the nebulization of the sanitizing solution. It can be used with liquid solutions with alcohol content above 75%, for a quick and efficient disinfection. Rechargeable lithium battery with USB cable included, tank with capacity of 120 ml. Compact and elegant design, suitable for all environments.
