Description

The DIGITUS® LED luminaire provides the right lighting conditions in every situation. Choose between cold work light or warm feel-good light in different gradations and, of course, in different brightness levels - all conveniently adjustable via touch control. The last light setting remains stored until the next use and does not have to be readjusted. The installation is carried out by simple clamp attachment to the display, the power supply is provided via an enclosed USB connection cable. The minimalist luminaire body sets stylish and high-quality accents at every desk.

Technical details

- Dimming function: 5 levels
- Color temperatures: 5 levels
- Color temperature setting: 5 levels
- LED technology: 48 x SMD 2835 0.2 W
- Adjustable Color Temperature (CCT): 3000K - 6500K
- Lumens: 250 lm
- Central luminous flux: 800 lux at 30 cm (distance to the light source)
- Colour rendering index: >80
- Energy efficiency class: F
- Power Supply: USB (5V/1A)
- Power supply can be done via computer, power bank, USB power adapter
- Power consumption: 5 W
- Mounting: Clamp attachment
- Material: ABS plastic, aluminum alloy
- Protection class: IP20
- Dimensions: W 44.7 x D 8.5 x H 2.5 cm
- Weight: 320 g
- Color: Black
- Type: Monitor Light

Scope of delivery

- 1 x LED monitor light with clamp attachment
- 1 x USB connection cable (USB A - Micro B)
