

PACKTALK SKI

The Ultimate Winter Sports Communicator

Always-on Group Communication

Communicate, laugh together, warn each other of potential danger or give tips in real-time with always-on group intercom. All without touching a button! No signal? No problem! Our dynamic mesh network does not require cellular coverage or base stations.

Rapid Installation

Our installation is as easy as it gets and super quick!

Full-day Operation

With 8 hours of talk-time you won't be carrying a portable charger around with you.

Music

Stream music directly from your smartphone and enjoy blasting sound through 32mm-wide speakers.

Phone

Make, answer, or reject calls with a push of a button all while your phone stays secured in your pocket.

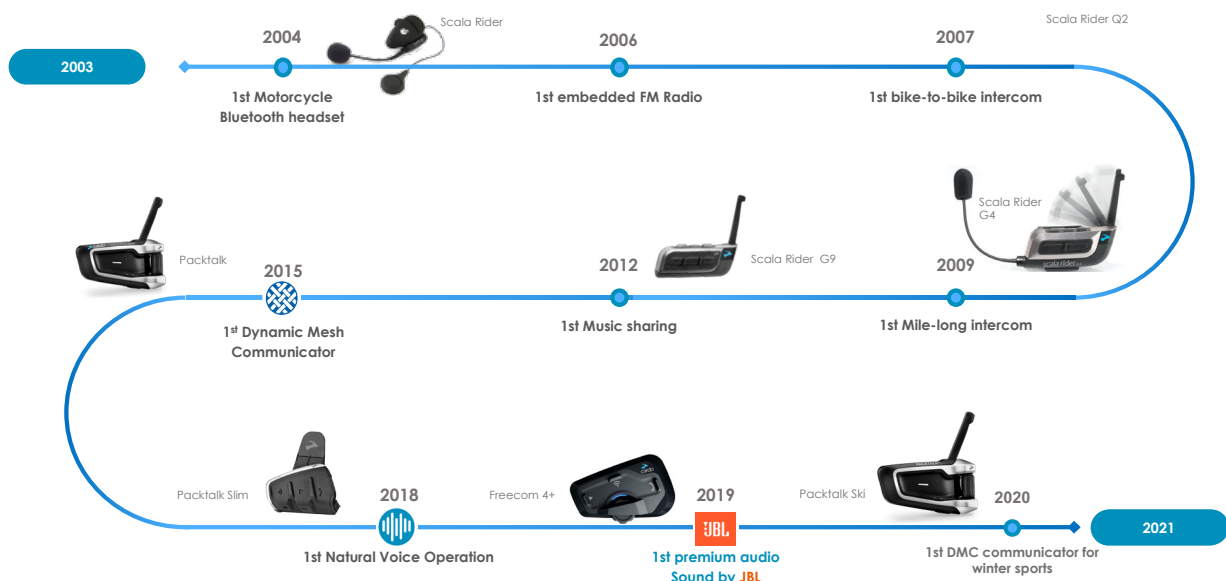

Robust

Whether it's raining, snowing or muddy – the Packtalk Ski is fully weatherproof and continuously operable at -20 °C and below.

HIGHLIGHTED FACTS ABOUT DYNAMIC MESH COMMUNICATION

- Up to 15 people – great from 2!
- Long range connectivity with up to 1 kilometer between each user.
- Network setup within seconds that needs to be done just once.
- If someone goes out of range the rest of the group leapfrogs that signal to keep the connection going. Once back within range, that person automatically rejoins the network.

INNOVATION IS IN OUR DNA

About Cardo

Cardo Systems specializes in the design, development, manufacturing and sale of state-of-the-art communication and entertainment systems for motorcycle and winter sports helmets. Since inception in 2004, Cardo has pioneered the majority of innovations for motorcycle communication systems with industry firsts such as long-range communication and Dynamic Mesh Communication. The company's products, now available in over 85 countries, are the world's leading communication devices for the motorcycle industry.
