

SKILLER SGM30W

Unbridled or conventional? With the dual-mode SKILLER SGM30W from Sharkoon, the choice is yours! But should the gaming mouse ever run out of juice in the wireless mode, it can be still be recharged and used for the rest of the game at the same time. In addition, the mouse offers a splendid performance even in demanding game genres thanks to its optical sensor with up to 6,000 DPI and seven programmable buttons. The RGB-illuminated logo provides a visual highlight while it also allows you to keep an eye on the battery status.

Features

■ FLEXIBLE CHARGING

The SKILLER SGM30W has a wireless battery life of up to 70 hours and can be recharged as desired, either wirelessly or using the supplied USB-C to USB-A cable.

■ PRECISE, OPTICAL SENSOR

The SKILLER SGM30W is equipped with an optical sensor with a performance of 6,000 DPI, which offers sufficient precision for mouse movements which require speed as well as precision.

■ SEVEN PROGRAMMABLE BUTTONS

With seven programmable buttons, the SKILLER SGM30W can be customized to suit your own gaming needs or any gaming genre.

■ DURABLE SWITCHES

The durable Omron switches in the left and right mouse buttons of the SKILLER SGM30W ensure durability and reliable performance.

■ USEFUL HIGHLIGHTS

The RGB-illuminated logo on the top of the SKILLER SGM30W not only provides colorful highlights, but it also serves as an indicator for the battery status.

■ CUSTOMIZATION THANKS TO GAMING SOFTWARE

The downloadable gaming software of the SKILLER SGM30W enables comprehensive adjustments for the most important functions and even allows the recording and assignment of macros.
