

Qoltec Heat shrink tube for DYMO D1/DM1 | 12mm * 1.5m | White | Black overprint

Product code: 50230

Heat shrinkable tubing to permanently mark wires and cables while protecting them. Designed for compatible DYMO printers.

Secure match

The printed tube is placed on the wire, which shrinks under the influence of temperature - you don't have to worry about damaging the wires, because during the heating process a protective insulation is formed. At your disposal, we offer various sizes and colors of labels, thanks to which everything will be clear and aesthetically described.

Aesthetic thermal transfer print

The thermal transfer overprint is transparent and clear, which proves its carefulness and incredible precision. Moreover, it is characterized by high durability and resistance to water, grease, extreme temperatures, and UV rays. It does not get damaged in very low or high temperatures. Heat Shrinkable Tubing has a wide range of uses both indoors and outdoors, so you can label your cables not only in the server room, but also outdoors e.g. in data cabinets or switch cabinets - such an organized space will certainly make it easier to identify individual cables.

Trust confirmed by warranty

Do you care about the high quality of the product you buy? Our solutions will meet your expectations. Each of the heat-shrinkable tubes we offer is covered by a 24-month warranty valid from the date of purchase.

Technical data

Producer	Qoltec
Colour print	Black
Printer tape	White
Overprint	Thermal-transfer
Heat shrink tube width	12 mm
Wire diameter	2.97 - 5.13 mm
Length of the tape	1.5 m
Destiny	DYMO
Package contents	Heat shrink tube
Quantity	1
Shrinkage	3:1
Resistance	- UV rays - Water - Abrasion
Temperature resistance	-20 C +120 C
Net weight	0,0250 kg
Gross weight	0,0280 kg
Warranty	24 months
EAN code	5901878502304
