## 1080p Full HD recording at 30 fps

- Designed with a Full HD 1080 pixel camera, your dash cam captures all the necessary details of your journey.
- With a 130° wide-angle lens, you can be sure that no part of your journey is left unrecorded.

## 3-Axis G-Sensor

- In the event of an accident or a sudden change of motion, the device's built-in G sensor instantly records vehicle's movements and ensures the recorded data cannot be overwritten.

## Auto power on

- The MiVue™ C440 has been designed for simplicity. Just insert a micro SD card, connect to your car's power source, and it will start recording as soon as you start the engine.

## 13 stage adjustable EV value

- Adjustable independently allowing brightness level to be manually adjusted.
