DESCRIPTION

Discover New Security Standards with Our Bullet Outdoor Camera!

As we enter the era of advanced security technologies, our bullet outdoor camera becomes an indispensable tool. Step into the center of innovation, ensuring the safety of your home or business at an entirely new level. Let us take you on a journey where quality, convenience, and reliability come together.

Sharp Image Quality:

With an advanced 4Mpix resolution sensor, our camera provides sharp, detailed images even in the most demanding conditions. It offers the clarity you deserve, making every detail visible.

Two-Way Communication:

Feel like a true guardian with the ability to communicate two-ways with anyone within the camera's field of view. Whether you want to greet a delivery person or warn a potential intruder, now you can do so with ease.

Nighttime Security:

No darkness will daunt you! Our camera is equipped with a night mode that ensures excellent visibility even in minimal lighting. Regardless of the time of day or night, you can be sure not to miss any crucial details.

Convenient Recording and Storage:

With a built-in SD card slot, you have full control over recording and storing data directly on the device. It's not just convenient but also provides independence from clouds or external servers.

Wireless Configuration:

Connect to our camera via a 2.4GHz Wi-Fi network and enjoy complete control over the security of your home or business from anywhere. Whether you're at home or traveling, our Tuya and SmartLife mobile apps will provide you with quick and easy access to all camera functions.

Weather Resistance:

Forget about weather-related concerns! Our camera has an IP66 protection rating, meaning it's resistant to atmospheric conditions, including rain, snow, or dust. You can rest assured that it will operate reliably for many years.

Our bullet outdoor camera is more than just a monitoring device. It's a guarantee of peace of mind, convenience, and security that you deserve. Purchase it today and join the thousands of satisfied users who enjoy full control of their surroundings, regardless of place or time.

SPECIFICATION

Brand	LTC
Model	LXKAM38/B
Main Processor	FH8852V201
Image Sensor	1/3" CMOS, 4Mpix
Lens	3,6mm@F2.0
Field of View	85°
Night Mode	18 diod IR
LED Light	NONE
Rotation Angle	NONE
Video Compression	Smart H.265 + H.264
Resolution	2560x1440 px
Audio Compression	AAC
Network Interface	WiFi, LAN [brak PoE]
WiFi Frequency	2.4~2.4835GHz, doesn't support frequency 5GHz
Network Encryption	WEP/WPA-PSK/WPA2-PSK
Protocols	TCP/IP, UDP/IP, HTTP, DHCP, RTSP, FTP, itp.
Memory	Card slot MicroSD up to 128GB, min. class C10
Alarm Notification	Motion detection & human detection
Alarm Mode	Audible & Notification for the mobile app
Power Supply	DC 12V/1A
Power Consumption	<10W
Operating Conditions (Temperature / Humidity)	Operating Temperature: -15~+60°C, Ambient humidity: 10%~90% RH
Protection Rating	IP66
Waga brutto/netto	550/350 g
