

INLINE® ULTRASONIC DIFFUSER, AMBIENT LIGHT, GOOGLE HOME + AMAZON ALEXA COMPATIBLE

Imagine a pleasant aroma when you're opening the front door or the unpleasant smell of food being neutralised instantly after cooking. The InLine aroma diffuser provides smart room refreshment, using ultrasonic technology for a cool mist of favoured oils/fragrances to spread through your home. Once the diffuser is connected to your home network, you can control it via app. Individual automations and scenarios can be created, e.g. avoiding regular appearing smells.

The diffuser can also be used without oil purely as an air humidifier or without steam output as indirect lighting. For a more subtle aroma experience, the steam output can be varied in three stages. Two adapters for the height adjustability and the simplified voice control, because of Google Assistant and Alexa compatibility, round off the comprehensive usability.

EAN: 4043718286829
ART.-NR.: 40154

HEIGHT ADJUSTABLE IN THREE LEVELS

Adjust the height of the In-Line® Aroma Diffuser to your individual needs in up to three stages.

RGB MOOD LIGHTING

There are seven colors available via the buttons on the device. With the app you can choose from the RGB color range
