The Forever Light Sunari FLS-01 solar LED lamp is an innovative solution for people who are looking for an efficient and energy-saving lighting for the exterior of the house. With a high brightness of 800lm and a lamp power of 10W, this lamp provides intense illumination while consuming little energy. The lamp is IP65-rated, which means it is resistant to water, dust and weather, allowing it to be used in places such as front doors, garage doors, sheds, gardens, balconies and building facades. The PIR motion sensor with which the lamp allows it to detect motion and turn on the lighting at 100% power, which allows you to better secure your home and provide convenience. It also has a capacious lithium-ion battery with a capacity of 2400mAh, which allows it to operate for 8-10 hours, depending on the battery level. The ability to adjust the operating modes with the remote control allows you to customize the lamp to your individual needs. The lamp has three operation modes: 1. 100% light from motion detection, 2. 100% light from motion detection + constant illumination 10%, 3. Constant light 50%. The distribution of light, thanks to the lamps pointing in different directions, ensures even illumination of the area. The modern and elegant design of the lamp makes it blend well with various architectural styles. The lamp is solar-charged, allowing it to be used without being connected to the power grid. Installation of the lamp is easy and it can be mounted in a variety of locations, making it ideal for users who are looking for easy-to-install and functional lighting.
