

RECORD with CONFIDENCE

High Endurance For Continuous Capture

For devices such as car video recorders (dash cameras), security cameras, and body cameras, it is imperative to capture the footage when that unexpected yet crucial moment occurs. This high-endurance microSD card was built for write-intensive applications with speeds of up to 80MB/s and seamless 24/7 recording. And when you need it most, play it back in crisp 4K Ultra HD.

Record And Re-Record ... Quickly

Writing and re-writing can take its toll on a memory card, but this one was built for the task. With read speeds of up to 100MB/s, you can transfer or back-up data quickly and begin a new set of recording in a snap. The equipped automatic error correction code (ECC) function ensures that it all goes smoothly. This further solidifies it as the superior choice for surveillance devices.

Memory Card Golden Series

Superior microSDHC/microSDXC UHS-I

Features

- Captures high-quality images and extended lengths of 4K Ultra HD video with any UHS-I microSD compatible car video recorder (dash camera)
- Specifically designed for continuous shooting with car video recorders (dash cameras)
- Read and write speeds up to 100 and 80 MB/s respectively*
- High-quality NAND flash for superior endurance and up to 256GB storage capacity for lengthy recording footage
- Shockproof, waterproof, and X-ray-proof for use in extreme environments
- Equipped with an automatic error correction code (ECC) function

*Speed may vary due to host and device configuration

Specifications

- Video Speed: C10, UHS-I U3, A1, V30
- Capacity: 32GB, 64GB, 128GB, 256GB
- Dimensions: 15.0mm x 11.0mm x 1.0mm
- Weight: 0.3g
- Performance Read(max.): 100MB/s
- Performance Write(max.): 80MB/s
- Durability: 10,000 insertions (minimum)
- Operating Temperature: 0°C - 70°C
- Storage Temperature: -40°C - 85°C
- Humidity: 8% - 95%
- Operation Voltage: 2.7V - 3.6V
- Warranty: 2 years
