

PRODUCT DATASHEET

[according to EU 626/2011, Annex IV]

Name or trademark of the supplier	Duux		
Model identifier	DXMA26		
Description	Symbol	Value	Unit
Inside sound power levels (Cooling mode)		65	dB
Refrigerant name	R290		
Global warming potential	GWP	3	kg CO ₂ Aq
The leakage of refrigerants contributes to climate change. Refrigerants with lower global warming potential contribute less to global warming in the event of a leak than those with higher global warming potential. This appliance contains refrigerant with a global warming potential of 3, so a leak of 1 kg of this refrigerant had 3 times the global warming impact of 1 kg of CO2 over a hundred years. Do not carry out any work on the refrigerant circuit or disassemble the appliance - always consult qualified personnel.			
Efficiency as seasonal coefficient of performance	EER _{RATED}	2,6	-
Energy efficiency class	A		
Indicative hourly electricity consumption ¹	Q _{SD}	1,4	kW / 60min
Rated power in cooling mode (max.)	P _{RATED}	3,5	kW
Nominal power consumption in cooling mode	P _{EER}	1,3	kW
Nominal power consumption in standby mode	P _{SB}	0,8	W
Noise level	L _{WA}	65	dB(A)
Contact address for further information		Duux BV Veghelsedijk 2f 5406 TE Uden The Netherlands www.duux.com/en/contact	

Energy consumption 1,4 kWh per 60 minutes, based on standard test results. Actual consumption depends on usage and location of the unit.
