

AK-PMH1 MEDICAL MOUSE 3-BUTTON SCROLL

Medical Mouse with three scroll buttons

Models may vary from the image shown

The AK-PMH12 Medical Mouse is particularly suitable for use in hygienically sensitive environments of hospitals, medical practices, and microbiological laboratories. The fully sealed silicone membrane ensures safe surface disinfection and protects the mouse against dirt, water and liquids. Germ growth from disinfectant residues in cavities is effectively prevented by thorough wipe cleaning. Due to the three scroll buttons and two mouse buttons as well as the high resolution of the optical sensor, the hygiene mouse enables maximum input comfort for precise work.

FUNCTION AND PERFORMANCE

- Fully sealed silicone membrane with IP68 rating
- Thorough wipe disinfection from all sides
- Ergonomic design for right- and left-handers
- 5 mechanically guided mouse buttons
- High resolution optical sensor for easy and accurate cursor guidance
