For a snack that's a bit different, and is healthy and wholesome but also full of flavour, Ariete has designed the Gran Gelato ice cream maker, ideal for preparing any flavour of **ice cream, sorbet or frozen yogurt** in just a few minutes. With the ice cream maker's double insulated **freezer bowl, ice cream is ready in just 30 minutes**: you just have to choose the ingredients, milk, fresh fruit or even chocolate or dried fruit, and create the mixture to pour straight into **the Gran Gelato ice cream maker**. The transparent lid with its special slot for pouring the ingredients straight into the ice cream maker allows you to keep an eye on the ice cream making process at all times. The handy **On/Off button** allows you to turn the machine off as soon as the ice cream has acquired the dense, creamy consistency that you prefer. Once the ice cream is ready you can easily take the machine apart and wash up the components so as to have it ready to make the next ice cream flavour.
