

Light strip

NEON – R65583100

incl. 1x SMD, 14W · 1x 1200lm, 3000K

- Remote control
- Integrated dimmer
- RGB Colorchanging
- Not suitable for external dimmer
- Memory function
- IP20
- Can be individually shortened

The NEON strip light impresses with the many different ways in which it can be used. As a light accent on individual pieces of furniture or as indirect, glare-free lighting in the living room, the NEON light strip gives the ambience a modern and cosy character. The LED strip can be shortened at the markings provided, making it ideal for personalising your living space. The RGB colour changer and the brightness of the LEDs on the three-metre-long strip can be adjusted using the included remote control. The Stripe is kept in a plain white colour so that it blends unobtrusively into any furnishing style, especially when switched off. The luminaire also features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. LED light sources also have a long service life, produce less heat and protect the environment.

Material construction

Plastic · White
