

3943-R28-UT-C-2P

Reciprocating Straight Saw Blade for Coarse Cut

PRODUCT DETAILS

- Straight blade with coarse cut for cutting roots
- 280 mm cutting blade length and 5 TPI for root cutting and trimming
- Precision ground, sharp UT toothing for good cutting and results
- The curved blade with hardened teeth is flexible but sturdy and durable
- The bevel ground and set blade concentrates cutting force on the tooth edge
- Sabre saw cutting with high stroke speed gives a fine cut surface
- Suitable for pruning, trimming & gardening
- Best performance with 18 V cordless or corded sabre saws
- Universal shank fits any type of reciprocating saw
