Shipping within **Następny dzień roboczy**

Additional information

Availability **High availability**

The Weight Of The **0.15 kg**

EAN **5906453141053**

Description

The **SMART WIFI MICROSCOPE MT4105** wireless microscope is an invaluable tool that will be used in education, trainings, lectures, presentations, workshops or even as a dermatoscope in cosmetics, etc.

The WIFI microscope is an ideal tool for precise works requiring a perfect image (CMOS Full HD Sensor) and magnification. The high quality of the sensor makes the image sharp and contrasting. The approximation is variable and ranges from x50 to up to x1000. You can change the zoom using the knob on the microscope.

The WIFI interface enables wireless connection of the microscope with mobile devices (e.g. smartphone, tablet) and computers, as a result, a preview of the enlarged item will appear on the screen of the smartphone or monitor.

For a better observation of the magnified object, the microscope is equipped with 8 white LEDs with adjustable brightness. The microscope, thanks to its small size and built-in battery (up to 1.5 hours of work), can be put in a bag and taken on a trip with a laptop.

A high-quality tripod with a flexible arm makes it easier to work with the WIFI microscope.

SMART WIFI MICROSCOPE MT4105 can be used for:

- all work that requires precision, e.g. in jewelry or watchmaking workshops,
- analyzing the accuracy of handwriting,
- detecting various types of counterfeits (banknotes and documents),
- valuation of works of art and antiques in auction houses and during maintenance works,
- all fields of collecting (e.g. numismatics, philately),
- live presentations,
- training, lectures and lessons at school,
- workshop works,
- and many other...

Features

- Wireless WIFI microscope
- Perfect as dermatoscope in cosmetic offices
- Perfect for electronics and other task requiring best picture and magnification
- Adjustable 50-1000x magnification
- CMOS sensor 1/4" Full HD
- Optical resolution: 2Mpix
- 8 bright white LEDs
- Light adjustment

- High quality stand
- Video capture: up to 20fps @ 1920x1080ppi
- Video & photo format: MP4 & PNG
- Network interface: WIFI IEEE 802.11 b/g/n, range up to 10 meters
- Data/charging port: microUSB 5V 1A
- Lithium battery 800mAh, up to 1,5 hour working time
- Android 5.x and higher, IOS, Windows VISTA/7/8/10 32 & 64 bit compatible (only USB connection)
- Dimension: 125x40mm (without stand)
- Weight: 91g (without stand)
