Description

The powerful **LED TOWER RINGLIGHT MT5541** is a ring lamp including a set of tripods (max. 1,6m and min. 19cm high). The lamp is suitable for home and professional use - in beauty salons or photo studios. Due to its circular shape, the lamp illuminates the subject accurately and evenly. The materials created with the ring flash gain in quality.

Different light modes

The lamp has 3 variable light modes and light intensity control:

- Cold color: color temperature 7000k,
- Natural color: color temperature 4000k,
- Warm color: color temperature of 2700k.

Adjustments are made with a convenient remote control on the cable.

Operation of the lamp is childish easy.

The ring light is powered via USB. The cable length is ~2m.

Smartphone holder

The holder is located in the center of the lamp, it is flexible and can easily be adjusted so that the phone is vertical or horizontal placed.

Lamp can be rotated

The lamp is mounted on a metal movable head. This allows you to change the angle of light in two planes.

This allows you to set the tripod at an appropriate height and direct the light centrally on the object photographed/filmed.

TOWER RINGLIGHT is a tool for:

- Web creators (Youtubers, vloggers, tiktokers, streamers, etc).
- Photographers (product photography, macro photography, portraits, photos for documents and many others)
- Make-up artists (in the salon as additional lighting)

Kit contents:

- Ring light with remote control on cable
