Detail images and texts

Good for the environment and your wallet: this freezer-cooler combination not only looks good, but also consumes less energy. So you save not only your household budget, but also the environment.

Never defrost again: Targeted air circulation ensures optimum humidity regulation inside the freezer compartment - making icing a thing of the past!

Faster cooling: The electronic control with "fast cooling" function is ideal for drinks or desserts.

Bright, durable and energy-saving: LED light in your refrigerator provides the best overview paired with low power consumption. A perfect combination.

Long freshness for fruits, vegetables, meat and cold cuts: The **VEGGIBOX** creates perfect conditions for fruits and vegetables with high humidity (90%) and temperatures around 5°C. In addition, the humidity can be individually adjusted by a "Humidity Control" slider. The **ZEROBOX** creates perfect conditions for fresh food with temperatures around 0°C and thus increases the shelf life immensely.
