Lighting ideas with colour features. The ARVIN LED luminaire creates the right light for every mood and situation. Differently aligned and clearly arranged, the light elements can be adjusted in brightness and RGB colours as desired. Separately switchable indirect lighting and convenient remote control are further highlights. The matte black colour scheme leaves a modern, stylish appearance. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
