

Delock External Enclosure for 2.5" SATA HDD / SSD with SuperSpeed USB 10 Gbps (USB 3.1 Gen 2)

Description

This aluminum enclosure by Delock can be used for the installation of a 2.5" SATA hard drive or SSD. Despite the slim design, hard disks up to a height of 9.5 mm can be installed.

Full speed due to SuperSpeed USB 10 Gbps

Due to the VIA chipset, this hard disk enclosure supports SuperSpeed USB with up to 10 Gbps transfer speed. Thus, the full SATA 6 Gb/s transfer rate of the hard disk can be exploited.

Full connectivity due to USB Type-C™ port

The external enclosure is connected to a PC or laptop via a USB Type-C™ female port installed on the housing. The included USB Type-C™ to USB Type-A cable allows the connection to a free USB Type-A female port. Of course, the enclosure can also be connected via an optional USB Type-C™ cable to a free USB Type-C™ female port or a free Thunderbolt™ port.
