AP Series

Air Penetrator 140i ARGB

High performance 140mm air channeling computer fan with ARGB lighting effects

- Industry leading air channeling fan
- Integrated ARGB lighting effect
- Hydraulic bearing for quiet operation
- Integrated rubber padding helps to further reduce vibrational noise
- Mounting holes designed for 135mm and 140mm fan mounts.
- Integrated air channeling grille double as fan guard for extra protection
- Low power consumption

Specifications

Model No.	SST-AP140i-ARGB
Color	Translucent fan blades, black frame
Material	PC fan blades, PBT frame
Bearing	Hydraulic bearing
Connectors	4 pin PWM connector + 4-1 pin ARGB
Rated Voltage	12V DC
Start Voltage	6V
Rate Current	0.27A
Rated Power	3.24W
Speed	500 ~ 2000 RPM
Airflow	18.8 ~ 73.48 CFM
Static Pressure	0.3 ~ 2.72 mmH ₂ O
Noise Level	14.9 ~ 41.3 dBA
Dimension	139mm (W) x 25mm (H) x 139mm (D) 5.47" (L) x 0.98" (H) x 5.47" (D)
Wight	195g
Air speed at fan edge	0.6 ~ 3.5 m/s
Effective Airflow Range	0.3 ~ 2.2 meter
Life Time	30,000 Hrs

Blazingly beautiful ARGB

Displays any color combination by use of an ARGB controller or capable motherboard.

SILVERSTONE

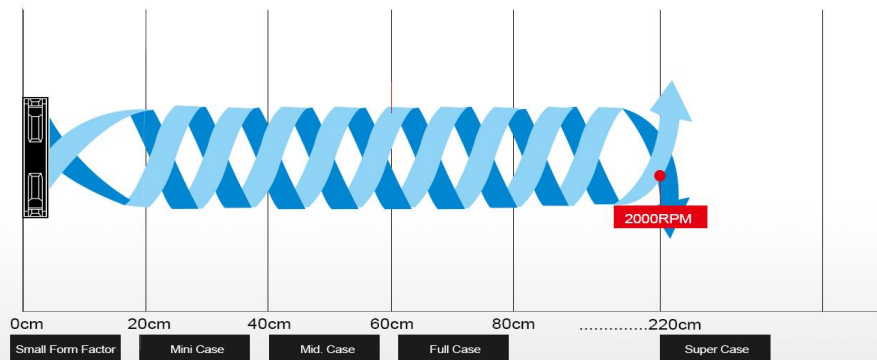

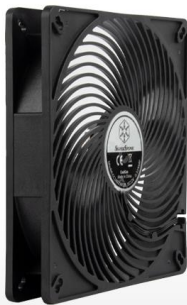

High static pressure with low noise operation

Air Penetrator 140i ARGB features pressure optimized fan blades which is designed for constant, high-pressure operation while keeping high-pitched noise low. Perfect for restrictive cases with high resistance.

Extended airflow ranges

The integrated air channeling grille alters the airflow drawn, forcing it into a more focused circular motion, this extends the effective airflow range to 2.2 meters, while eliminating dead spots.

Straightforward connection / effortless cable management

Instead of connecting multiple fans to one fan hub, Air Penetrator 140i ARGB is designed with perfectly measured daisy chain cables, allowing for ARGB synchronization from one fan hub port to multiple fans, hence eliminating long cable management routings.
