

Qoltec RACK cabinet 19" | 12U | 600 x 635 x 450 | perforated door

Product code: 54488

RACK cabinets are also called ICT cabinets or server cabinets. These are industrial devices used to organize space for IT equipment.

Multi-sector use

RACK cabinets are used to store servers, network devices, UPS power generators or switches – the task of RACK cabinets is to protect the equipment and guarantee its **stable functioning** and **maintain order in the IT sphere**.

They are used not only in the IT industry, but also in energy or industry, they are equipped with rubber shock-absorbing feet and a ventilation system, the main element of which is a perforated door.

Organize a safe space

You don't have to worry about the stable functioning of the servers. **The space is organized and tidy, and servers and data remain secure.**

Rack cabinets are also an **integral part of each server room** and **guarantee the stable and effective operation of the data center**. They have many different parameters and variants of execution, so you will certainly find a model that suits your needs.

Trust confirmed by warranty

Do you care about the high quality of the product you buy? **Our solutions will meet your expectations**. Each of the RACK cabinets we offer is covered by a 24-month warranty valid from the date of purchase.

Technical data

Producer	Qoltec
Unit height	12 U
Material	SPCC Cold Rolled Steel
Usage	Server room Teletechnics Power engineering Industry
Additional information	Perforated front door with a lock Possibility to install fans Removable side panels Easy to assemble Durable construction
Color	Black
Dimensions	600 x 635 x 450 mm
Package contents	RACK cabinet Mounting set Front lock Rubber shock-absorbing feet
Package depth / length [mm]	230
Package width [mm]	600
Package height [mm]	670
Net weight	19,9000 kg
Gross weight	21,6000 kg
Warranty	24 months
EAN code	5901878544885
