

Incandescent oven bulb RETLUX RHL 219

There is no greater misfortune for a housewife than an oven bulb breaking in the middle of preparing a roast duck for the whole family on Sunday. We cannot let this happen! So you should buy at least one piece. The oven bulb resists temperatures up to 300°C and will let you enjoy your meal at the table for up to 1,000 hours.

Description

Incandescent bulb for baking ovens - 15W
Luminous flux 90lm
Normally resists temperatures up to 300°C
Classical fixture E14
10000 switching cycles
Lifetime 1000 hours
Dimensions: (l*Ø) 50*22mm

Technical specs

Energy class G
Head type S
Socket thread E14
Voltage 220 - 240 V
Power input 15 W
Version Instrumental
Lifetime 1000 h
Luminous flux 90 lm
Color rendering index 99
Beam angle 330 °
Number of starts 10000
Color temperature 2800 K
Colour of light Warm white
Dimmability - NO
Length 20 mm
Diameter 45 mm
Weight 6 g
