

BCL33C1 18 V 2.3 A Battery Chargers

PRODUCT DETAILS

- Charger is compatible with all Bahco 18 V battery packs
- Charging up to 100%, a 2 Ah battery pack takes around 50 minutes and for a 5 Ah battery pack around 135 minutes
- The charging time can be altered by the remaining battery capacity level, the charging environment, ambient temperature and the age of the battery
- The Bahco intelligent charger protects the battery from over-current, over-charging and over-heating
- The right environment conditions are dry and ventilated areas, protected from dust and at a temperature between +10 °C to +25 °C
- The charger automatically stops once the battery is fully charged
- When a battery is fully discharged, the tool will no longer be operative
- LEDs on the main charger board indicates the status level of the battery
- Never put a broken or cracked battery pack to charge
