MiVue™ 812

1440P GPS Dash Camera

Mio™ Night Vision Technology

Utilizing cutting-edge **Mio™ Night Vision Technology**, smooth and clear footage is ensured by our professional image tuning technology and our insistence on using all glass lens for durability and high light transmittance.

Undisputable footage
1440P recording
Every detail captured and stored

Full HD 1080P
60 fps
Crystal clear video even at high speeds

Average Speedcam Alert
Calculate the remaining time, distance, and average speed for you

Large aperture
F1.8
Capture brighter videos at night

GPS
GPS tracking
& Time/location
auto-calibration

GPS Safety camera
warnings & Mio's patented
Smart Alert

Smart Parking Mode

140° wide angle view

Average Speedcam Alert

MiVue™ 812 shows the distance and time (seconds) to terminal speedcam, and also provides the speed limit and average speed of the interval.

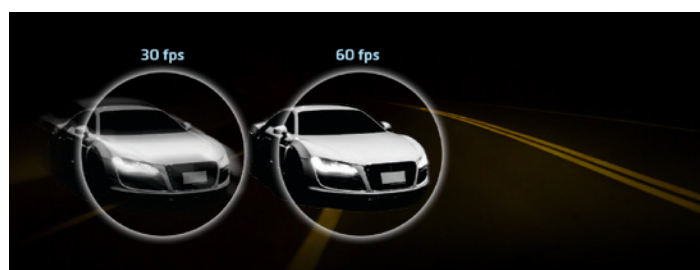

60fps High Speed Recording

- When compared with conventional 30fps, this double data density allows for exceptionally detailed and smooth video even when recorded at high speeds

60fps vs 30fps

Smart Parking Mode

- When the engine is turned off, MiVue™ 812 automatically switches to Smart Parking Mode. It can activate video recording when the sensor detects motions or impacts near the front of the vehicle. This helps collect evidence even when you're not in the car*

* Requires Smartbox III, available separately.

GPS Safety Camera Warnings

- General fixed-distance warning
- Mio's patented Smart Alert: early alert for higher speeds
- Enjoy free safety camera data updates**

** Excludes France, Switzerland, Latvia, Estonia, Romania, Turkey, and Germany.
