

Qoltec Docking station HDD/SSD | 2.5"/3.5" SATA | USB 3.0

Product code: 50315

An external docking station for a 2.5" or 3.5" hard drive is a convenient solution that allows you to transfer data between SSD and HDD drives and a computer using the high-speed USB 3.0 bus.

EXTREME MEMORY

This model of the docking station is an interesting alternative not only for people who store documents or private files on disks, but also for small businesses that want to **archive their computer data** without investing in expensive solutions.

The docking station to the hard drive can also be connected to a TV or monitor equipped with a USB port - then it will act as a video player with a **huge amount of memory**, if you collect photos and videos on hard drives this **product is dedicated just for you.**

INNOVATION IN YOUR HOME

You don't need to install drivers, just plug into a USB port and use thanks to the simplicity of the **Plug & Play function.**

The product is characterized by an **ergonomic shape** ensuring comfort of use, and the **minimalist and elegant design**, which is given by a thin and light casing, creates **excellent aesthetics of the device**, thanks to which it will adapt to any type of room. **Cushioning** is guaranteed by additional rubber feet, stabilizing the housing against moving during work.

Confidence confirmed by a warranty

Your trust in our products is a priority. We provide a 24-month warranty for the Qoltec docking station, valid from the date of purchase. **Check how it meets your expectations!**

Technical data
