Delegated Regulation (EU) 65/2014

|                                                           |                              |
|-----------------------------------------------------------|------------------------------|
| Supplier name or trademark                                | <b>Beko</b>                  |
| Model identifier                                          | <b>FSE57300GX 7768286719</b> |
| Number of cavities                                        | <b>1</b>                     |
| <b>Cavity 1</b>                                           |                              |
| Energy Efficiency Index                                   | <b>94,8</b>                  |
| Energy Efficiency Class                                   | <b>A</b>                     |
| Energy consumption per cycle (conventional mode)          | <b>0,92 kWh</b>              |
| Energy consumption per cycle (fan-forced convection mode) | <b>0,74 kWh</b>              |
| Heat source                                               | <b>Electric</b>              |
| Volume                                                    | <b>55 Litres</b>             |
